The Foreclosure Crisis demands an organized response from those of us most directly affected in our neighborhoods, families, township and county. To homeowners in any phase of foreclosure – even if your home has been sold – attend the Townhall and discover you're not alone. A system-wide breakdown has been in play for years and has swept over working people like a tidal wave. Learn strategies only we who will occupy our homes can do! Together we CAN team up and activate our resources towards real corrections and long-term solutions as a community.

Neighborhoods across Alameda County are organizing for an immediate  
***FORECLOSURE MORATORIUM – Cease & Desist Order***,  
pending a complete ***Independent Audit of all recorded documents***  
at Alameda County, and in other public records pertaining to lawful process

Get updated on SF County's recent strong efforts to curb this crisis, and how we in the East Bay MUST take it much further, and what that can look like for our families and neighborhoods, towards a long term vision of economic empowerment, and human and ecological well-being from our children to our elders. Co-presented with speaker CJ Holmes of Homeowners for Justice ([www.hofj.org](http://www.hofj.org)).
