## General Instructions

- This pattern is suitable for quilters of all levels.
- WOF (width of fabric, selvage to selvage).
- Press as indicated by arrows in each step.
- This quilt was made using one Roll Up featuring 72 new shades of Prisma Dyes from Artisan Batiks.

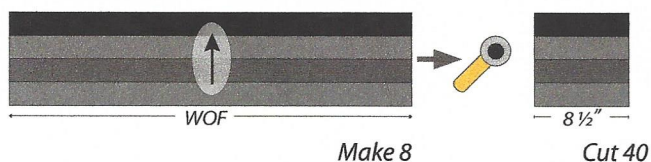

## Fabric Requirements

- One Prisma Dye Rollup - or - 72 strips 2 1/2" x 44" in assorted colors.
- Sort the strips by color and value:
  - Group 1** • 32 strips in *dark & earthy colors*
  - Group 2** • 32 strips in *light & bright colors*
  - Group 3** • 8 strips reserved for *binding*  
Cover shows this group in pinks and reds

## 1 Making the Strip Pieced Units

Strip pieced units (SPU) are made in two steps. First, sew the strips together into a strip pieced unit. True and trim the ends of each SPU, then crosscut into smaller units. Make the units listed below, pressing as indicated by arrows.

### Using Strips from Group 1

### Using Strips from Group 2

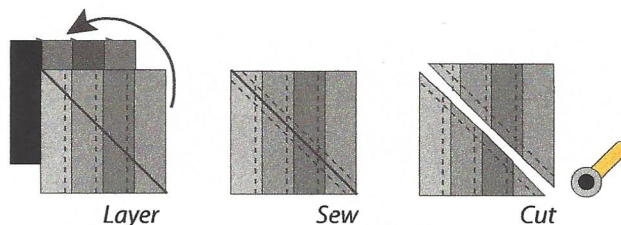

## 2 Making the Blocks

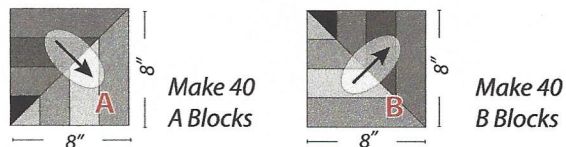

Mark all the SPU made from Group 2, diagonally on the wrong side of the fabric. It is **VERY IMPORTANT** to make sure that your squares are oriented correctly with the strips facing you vertically as illustrated.

Layer a marked SPU on top of an unmarked SPU, RST, making sure the seams nest together. Sew a scant 1/4 inch seam on either side of the marked line. Cut the square in half along the marked line.

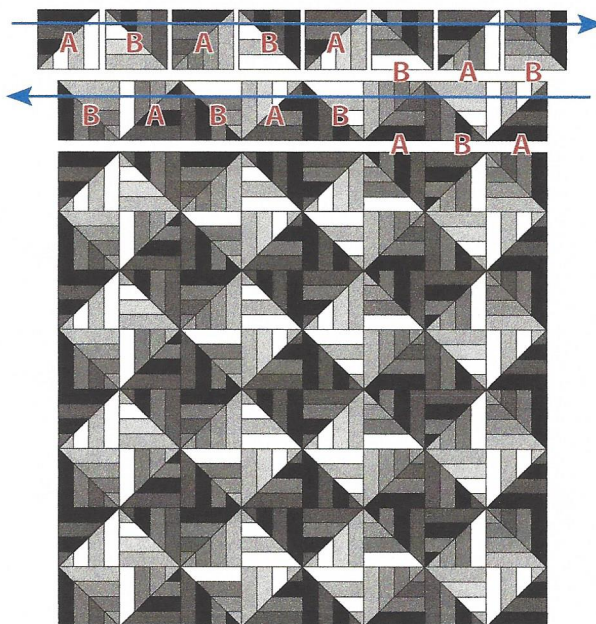

Press half the blocks to the light (Block A) and half the blocks to the dark (Block B). Trim the blocks as illustrated.

## 3 Putting It All Together

Arrange the blocks to create the pattern shown below or a unique design of your own. Alternate the A and B blocks and press the rows in opposite directions as illustrated. Join the rows together and press to the least amount of bulk.
