Circulating Variant Polio Virus

In our other battlefield against polio, the circulating Variant Poliovirus (cVDPV), even though 1 case is 1 case too many, there was only 1 new case reported last week, for the **2nd week in a row**, as follows:

Somalia : 1 Type 2 case (2 cases total in 2025 verses 24 cases in 2024).

Positive Environmental Samples (ES)

- **Wild** - As mentioned above there were zero Environmental Samples, so the YTD total remains at 683 compared to 773 total last year.
